Starter Package
Computer Fundamentals, Word Basics, Excel Basics, Outlook Basics
COURSE OUTLINE

SUTHERLAND TRAINING
caring, flexible, professional

TARGET AUDIENCE

Our "Starter Package" is designed for those who have very little or no experience using a computer and wish to make a start at learning more about how a computer works and some of the widely used applications. It is also aimed at those who wish to improve their confidence around computers.

LEARNING OUTCOMES

The skills and knowledge covered will build confidence and enable learners to understand computer jargon, find their way around Windows, create a file system and use key features of Word, Excel and Outlook.

DURATION: 1 day a week for two weeks

COURSE OUTLINE

WEEK 1

Computer Theory
Computer Technology
- Computer Types
- Networks
- Hardware & Software
- Input and Output devices
- The Computing Process
- What is meant by "The Cloud"
- An overview of AI
- RAM (Random Access Memory)

Practical Session
